Celebrating a Decade of Excellence Since 2016

In 2016, co-founders Pam Jefcoat and Sonia Sahota recognized an area of need for providing steady legal guidance for local governments and other public bodies. Premium legal advice, big picture thinking, and personal attention to detail was in demand. *Civic Legal met that need.*

Since 2016, Pam and Sonia, together with Michael Moll, who joined the partnership in 2022, have built a brand of strong partnerships, efficient work, and desirable legal services for many local governments and public corporations throughout the Province. As a small firm with “big thinkers” Civic Legal has evidenced its commitment to servicing local governments through countless presentations, seminars and publications, and a tireless commitment to subject matter excellence.

The partners at Civic Legal have worked exclusively within the areas of land development, real estate, procurement, construction, and municipal law for many, many years and have combined their experience to provide strategic and focussed advice. Their expertise enables the firm to work with clients from the conception to completion of projects and to provide practical and creative solutions to any legal challenge that may arise along the way, regardless of complexity. Thanks to the leadership of Pam, Sonia and Michael, Civic Legal remains a trustworthy, desirable choice for local governments. We take this time to celebrate all the accomplishments of the last decade and to thank our clients, sincerely, for their continued support. We look forward to remaining trusted advisors to our local government partners for many years to come!
